Persons wishing to use the Morgan Hill Unified School District's computer system are required to read this Acceptable Use Agreement and agree to abide by its terms by signing the Agreement. Signed Agreements must be completed and returned to the applicable school site or work site at the beginning of each school year and/or when the user first starts using the computer system.

### **INTRODUCTION**

The Morgan Hill Unified School District provides technology resources to its students and staff in furtherance of its educational and business purposes. It is the District's goal to promote educational excellence in the District's schools by providing technological resources, facilitating innovation, and improving communications with the support and supervision of parents, teachers, and staff. The use of these technology resources is a privilege, not a right.

Access to computers and people all over the world through the District's Computer System entails potential access to material that may not be considered to be of educational value in the context of a school setting. The District believes that the value of the information, interaction, and research capabilities available through computer technology outweighs the possibility that users may obtain material that is not consistent with the educational goals of the District.

Proper behavior, as it relates to the use of computers, is no different than proper behavior in all other aspects of School District activities. All users are expected to use the District's Computer System in a responsible, ethical, and polite manner. Parents are strongly encouraged to be involved in their children's computer use and to guide them in ethical and proper use. This document is intended to clarify the terms and conditions of access to the Computer System and expectations as to its proper use.
