

## School Facts & Accountability Information

Public schools throughout California are required to provide information about themselves to the community in the form of an annual School Accountability Report Card (SARC). These report cards provide a variety of data to allow the public to evaluate and compare schools in seven major areas:

- demographic information
- school safety and climate for learning
- academic data
- class size
- teacher and staff information
- curriculum and instruction
- fiscal and expenditure data

Each year, we share important facts about schools with parents guardians, and the community at large. Early in the fall, we produce Fact Sheets that summarize key facts from the previous school year (the most recent year for which we have complete data). Later in the year, we produce longer reports that provide details about our students, teachers, facilities, financial resources, and educational programs.
