Governance Role and Responsibilities:

School governance is the act of providing guidance and oversight to the district at a level above and removed from direct managerial control. We accomplish this by reaching agreements as a unified team with a common vision, consistent with the law that will:

- Set direction by establishing district goals
- Establish structures through policy and policy documents
- Monitor and verify district performance against board goals

- Solicit community input, support and involvement in district efforts, achievements, and needs

Receiving Community or Staff Concerns and/or Complaints:

- When approached with an issue or concern, trustees agree to:
 - Listen openly, being careful to remain neutral.
 - Remind staff and members of the community that no individual trustee has the authority to solve the issue or concern
 - Encourage addressing this with the person who can most directly help them with their concern, e.g. teacher, principal, superintendent
 - As appropriate, explain the district complaint or grievance process.
- Trustees will notify the superintendent of the issue or concern, as appropriate

Visiting Schools:

- Trustees requesting a meeting with school staff or administration will schedule this meeting through the Superintendent
- The superintendent and/or principal will, at their option, accompany trustees on classroom visits
- The superintendent will ensure that staff is aware of the process and protocols for trustees visiting the classrooms
- Board members are encouraged to attend school events

Board Governance Self-Assessment:

- The board supports continuous improvement through ongoing evaluation of governance effectiveness.
 - The board will participate in a self-assessment process annually
 - The self-assessment provides an opportunity to reflect, evaluate, prioritize and focus on strengthening the governance team
 - The board will review progress towards the district goals, the governance handbook, the governance calendar, and perform a self-evaluation annually
 - The assessment process will align with the assessment of progress on district goals and the superintendent evaluation
